

### Cost of education in Australia - International Student

The cost for students wanting to study in Australia depends on what level of education the student is pursuing. Overall living expenses and tuition cost in Australia are lower than cost of studying in the USA or UK.

The tuition cost listed below is not the actual cost. It is listed as an overall average range of tuition cost. Please contact your prospective school directly for a more in depth student cost estimate. Costs can also vary depending on the course or program.

The cost listed below could show an increase or decrease in regards to the following student services and facilities:

- Student clubs
- Class lab cost
- Gym

- Books
- Stationary items
- Study guides
- Tutoring

The basic study fees are outlined below – fees are listed in Australia Dollars (AUD\$): Please note that the following fees are for illustration purposes and should be taken as a guide only.

The average range of tuition cost for different programs and levels of study are listed below in the Australian dollar (AUD). To convert your country currency to the Australian dollar, please use our currency converter.
